Premium Barbershop Performance Analysis Report

==========

Prepared for: PangaeaX Client

Date: March 7, 2026

Prepared by: ABDELATIF OUARDA

📌 Executive Summary

This report provides a comprehensive analysis of the barbershop's performance from November 2024 to September 2025. Key findings include:

· 100% revenue growth (from 10,000 to 20,000 monthly)

· Discounts and refunds below 6% (excellent in service industry)

· 92% digital payments (Fresha_terminal 59.9%, TD_POS 32%)

· Weekdays capture 73% of total revenue

· Only 1% refund rate (evidence of customer satisfaction)

📊 List of Visualizations

1. Business KPIs Overview

2. Revenue Distribution by Payment Method

3. Monthly Revenue Trend

4. Total Revenue vs Net Revenue Over Time

5. Impact of Discounts and Refunds

6. Monthly Discounts & Refunds Analysis

7. Weekday vs Weekend Revenue

8. Monthly Revenue Classification (Low/Medium/High)

🔍 Key Findings

1. Strong Revenue Growth: 100% increase over 10 months (from 10K to 20K)

2. Low Deductions: Discounts + Refunds = only 5.7% of total revenue

3. Digital Dominance: 92% of payments are cashless (Fresha_terminal 59.9%, TD_POS 32%)

4. Weekday Focus: Weekdays generate 73% of total revenue

5. Peak Period: March-May 2025 recorded highest growth

6. Customer Satisfaction: Only 1% refund rate → excellent service quality

7. Stable Gap: Total vs Net Revenue gap remains constant → controlled discount policies

8. Growth Pattern: Clear transition from Low → Medium → High revenue months

---

🎯 Final Recommendations

💰 Revenue Growth Strategies

1. Price Optimization

· Increase prices on top services by 5-10% gradually

· Why: 1% refund rate proves customers pay for quality

· Expected Impact: +8,000–12,000 annual revenue

2. Weekday Focus

· Allocate 80% of marketing budget to weekdays (Sun-Thu)

· Why: Weekdays already generate 73% of revenue

· Expected Impact: +15% growth in main revenue stream

3. Weekend Activation

· Launch "Weekend Special" : 15% family discount or free add-on service

· Why: Weekends only 27% → huge growth opportunity

· Expected Impact: +30–40% weekend revenue

📱 Digital Payment Strategies

4. Boost Fresha_online

· Offer 5% discount for first online booking (3-month trial)

· Why: Currently only 0.574% → massive untapped potential

· Expected Impact: Increase to 5–7% of total revenue

5. Reduce Cash Dependency

· Train staff to highlight "faster, safer digital payment"

· Why: Cash is 7.49% → security risk & operational inefficiency

· Expected Impact: Reduce cash to below 4% in 6 months

6. Digital Loyalty Program

· Use Fresha for automated birthday offers & re-engagement campaigns

· Why: 92% digital payments → rich customer data unused

· Expected Impact: +20% repeat visits

📈 Seasonal & Marketing Strategies

7. Leverage Peak Season (March-May)

· Plan intensive campaigns for March-May 2026 (replicate 2025 success)

· Why: This period showed highest revenue and discount activity

· Expected Impact: Replicate +20% seasonal growth

8. Monthly Classification Strategy

· Allocate more marketing budget to "Low" months to upgrade them

· Why: Proven transition path: Low → Medium → High

· Expected Impact: Reduce seasonality & stabilize revenue

👥 Operational Strategies

9. Staff Scheduling Optimization

· Analyze weekday peak hours and increase staff during busy times

· Why: Weekdays = 73% revenue → need higher capacity

· Expected Impact: Reduce wait times & increase satisfaction

10. Quality Training

· Maintain monthly training to keep refund rate below 1%

· Why: Low refunds = key competitive advantage

· Expected Impact: Protect premium brand reputation

✅ 3-Month Action Plan

Month	Actions	Goals
Month 1	5% price increase + Launch Fresha_online discount	Test customer reaction
Month 2	Analyze results + Launch weekend offers	Boost weekend revenue
Month 3	Launch loyalty program + Plan March-May campaign	Prepare for peak season
